Tweed

Tweed chest of drawers, design Giuseppe Bavuso, 2007

The walk-in closed demonstrates its flexibility even in unusual environments, thanks to the introduction of new elements like Tweed chest of drawers. Tweed chest of drawers, becomes an architectural element for the environment, both a container and a screen, to separate areas for increased privacy.

Tweed is a chest of drawers adaptable to any space. An advanced organization of the internal parts of the order, where functionality and personal style are coinciding.

Finishing:

The chest of drawers Tweed is available in melamine wenge and melamine c.walnut; with drawers in wood or in glass top covered in leather and shelves in transparent glass.

Dimensions:
